## DATA ANALYST

☎ +91-98765 XXXXX   ✉ priya.sharma@email.com   🔗 linkedin.com/in/priyasharma-data   📍 Mumbai, Maharashtra

### PROFESSIONAL SUMMARY

Results-driven Data Analyst with 2+ years of experience in data analysis, visualization, and business intelligence across e-commerce and retail domains. Proficient in Python, SQL, Power BI, and Excel for end-to-end data workflows — from data cleaning and ETL to interactive dashboards and predictive modelling. Adept at translating complex datasets into clear, actionable insights that drive data-driven business decisions. Strong communicator with experience in stakeholder reporting and cross-functional collaboration.

### TECHNICAL SKILLS

**Programming & Libraries:** Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn)  
**SQL & Databases:** MySQL, SQL — Joins, Subqueries, CTEs, Window Functions, Aggregations, Query Optimisation  
**Data Visualization & BI:** Power BI (DAX, Power Query, Data Modelling), Tableau (Basic), Excel (Pivot Tables, VLOOKUP, XLOOKUP, INDEX/MATCH, Power Query)  
**Data Engineering & Quality:** ETL Pipelines, Data Cleaning, Data Validation, Data Wrangling  
**Statistical Analysis:** Regression, Clustering, Hypothesis Testing, EDA, Time Series Analysis, Forecasting  
**Business Intelligence:** KPI Tracking, Dashboard Design, Reporting & Storytelling, Root Cause Analysis  
**Tools & Platforms:** Git, GitHub, Jupyter Notebook, Google Sheets, MS Office Suite

### PROFESSIONAL EXPERIENCE

#### Gateway Software Pvt. Ltd. — Mumbai, India

Jun 2023 – Present

##### Data Analyst

- Designed and implemented end-to-end analytics dashboards analysing 50,000+ transactions using SQL queries and ETL pipelines.
- Developed 15+ interactive Power BI dashboards for real-time KPI monitoring, enabling **30% faster reporting** for business stakeholders.
- Built automated data pipelines using MySQL for structured storage and real-time updates, improving customer support efficiency by 25%.
- Implemented time series forecasting models using Python (Scikit-learn), achieving **85% accuracy** in predicting quarterly revenue trends.
- Performed comprehensive data cleaning and validation across large datasets, ensuring **99% data accuracy** and reducing manual effort by 40%.
- Collaborated with cross-functional teams to deliver actionable insights through data storytelling and executive-level reporting.

### PROJECTS

#### Store Sales & Inventory Analytics | [SQL](#), [MySQL](#)

- Designed relational database with primary/foreign key relationships to manage stores, staff, customers, products, and orders across multiple locations.
- Performed advanced SQL analysis using Joins, CTEs, and Window Functions (RANK, ROW\_NUMBER, SUM) to identify top-selling products and monthly sales trends.

#### Retail Sales & Customer Behaviour Insights | [Python](#), [Pandas](#), [NumPy](#), [Matplotlib](#), [Seaborn](#)

- Cleaned and preprocessed retail dataset handling missing values, data type conversions, and date-based feature engineering.
- Performed customer segmentation by age, gender, and demographics; identified high-value customers and seasonal purchasing patterns.
- Created visual reports using Matplotlib and Seaborn to support data-driven product and marketing decisions.

### EDUCATION

**Master of Commerce (M.Com)** — Sant Gadge Baba Amravati University

2023 – Pursuing

**Bachelor of Commerce (B.Com)** — Sant Gadge Baba Amravati University

2020 – 2023

## KEY ACHIEVEMENTS

---

- ▶ Reduced data processing time by 40% through ETL workflow optimisation and query refactoring.
- ▶ Delivered 30% faster reporting through Power BI dashboard automation used by senior management.
- ▶ Achieved 85% forecast accuracy in revenue prediction model using Python time series analysis.
- ▶ Maintained 99% data accuracy across large-scale datasets through rigorous cleaning and validation processes.
